Remove Horn
Bracket

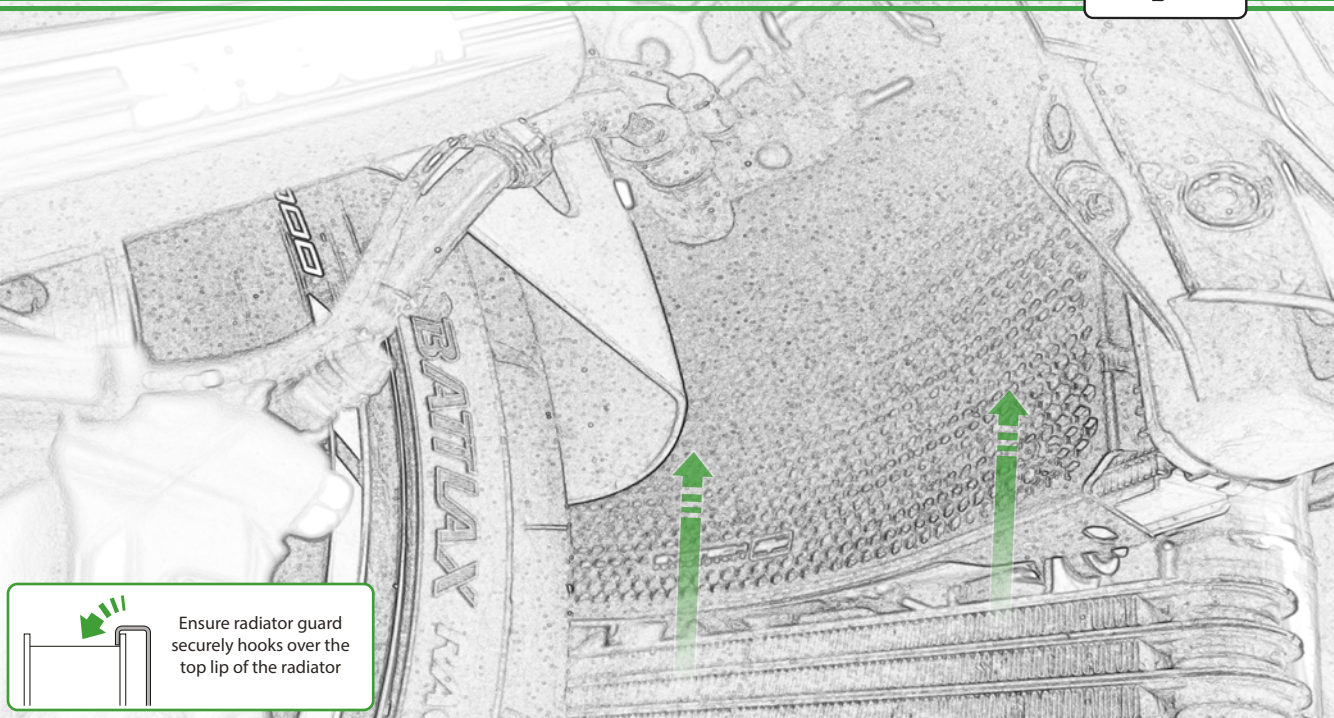

Reinstall the Horn
Bracket Bolt

Reinstall Radiator Bolt

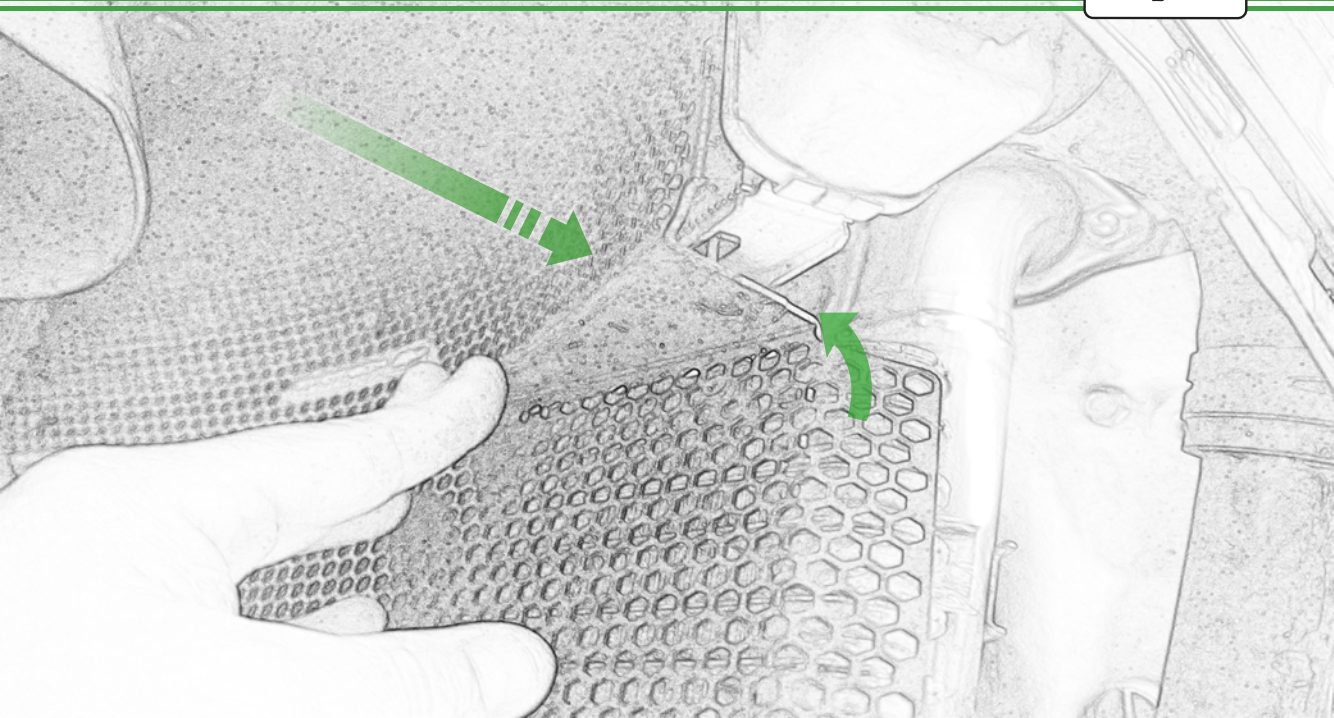

Ensure radiator guard
securely hooks over the
top lip of the radiator

Locate Oil Cooler Guard
Behind Rad Guard

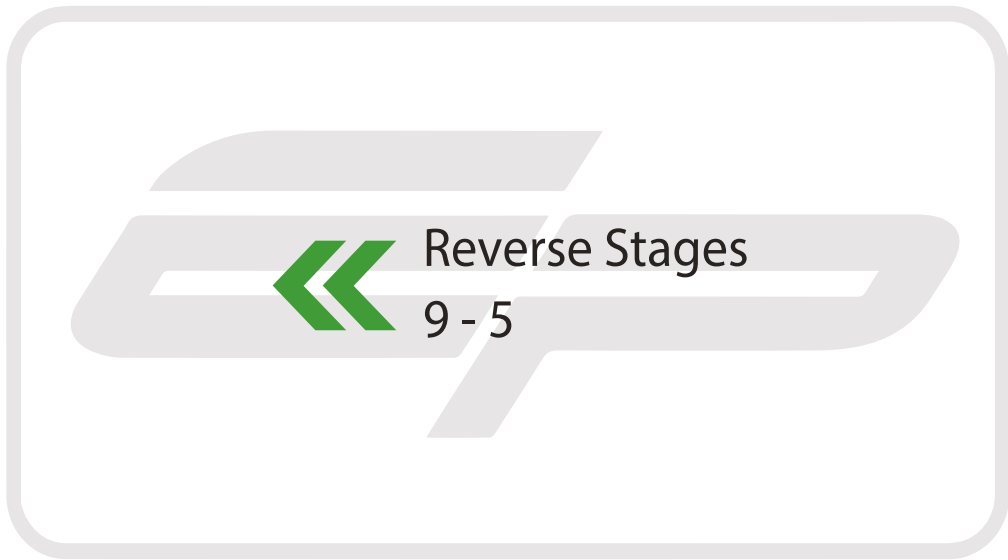

Repeat
Both Sides

OEM PART

ESSENTIAL CHECKS

It is recommended that periodic inspections are made to ensure that dirt and debris have not become trapped between the guard and the radiator/oil cooler. Such dirt and debris would reduce the cooling efficiency of the radiator/oil cooler.

It is recommended that periodic inspections are made to ensure that all fixings are fully tightened.
